A young corn plant with several green leaves is growing out of dark, rich soil. The background is a soft, out-of-focus golden light, suggesting a sunrise or sunset. A dark green rectangular box is overlaid on the left side of the image, containing white text.

ABOUT GRANOVA FOODS

Granova Foods is a premier leader in the agricultural manufacturing sector, specializing in the high-quality production, international trading, and global export of premium frozen fruits, vegetables, and tailored food commodities. Sourcing our high-quality products from Egypt's fertile lands ensures premium quality and sustainability.

We are at the forefront of the agri-business industry, applying advanced processing techniques to provide innovative, sustainable, and high-quality agricultural products.

WHO WE ARE: A VISION OF EXCELLENCE

Operating a state-of-the-art production complex, our facility is engineered with the latest Individually Quick Frozen (IQF) freezing technology to preserve quality, freshness, and shelf-life at the highest parameters. This advanced method flash-freezes each item at its absolute peak of ripeness, flawlessly preserving the essential vitamins, natural antioxidants, structural cell integrity, and vibrant field-fresh flavor.

By maintaining rigorous, absolute control over the entire crop cycle—extending directly from our supervised farms to the final sealed packaging—Granova Foods guarantees unmatched quality assurance, exceptional safety parameters, and consistent volume availability at globally competitive pricing models.

UNIVERSAL QUALITY & CERTIFICATIONS

Based on our rigorous commitment to the highest standards of quality, we insist on controlling the production cycle from farm to final product, with visibility and quality assurance at each phase. Through our regular inspection and monitoring, our products have acquired a reputation of consistency as well as quality.

Our production ecosystem carries full compliance and elite status under premium international food safety benchmarks and global regulatory standards:

TOMATO PORTFOLIO

Granova Foods offers a range of high-quality tomato products sourced from Egypt's sun-drenched fields, where the tomatoes are harvested at peak ripeness to ensure maximum flavor and nutrition value.

Our tomato paste, puree, and diced tomatoes are carefully processed to preserve their vibrant color, rich taste, and essential nutrients.

TOMATO PASTE

Granova Food's tomato paste is made from sun-ripened Egyptian tomatoes, providing authentic, concentrated flavor that enhances dishes globally. Ideal for sauces, soups, and stews, our paste is packed to preserve its rich taste and vibrant color.

Variants & Brix Levels:

- Cold Break (CB): 36-38% | 28-30%
- Hot Break (HB): 28-30% | 30-32%

TOMATO PUREE & PASSATA

Tomato Puree: Offers a smooth texture and a perfect balance of sweetness and acidity, ideal for premium base culinary sauces. Tomato Passata: Smooth, sieved tomato purée made from 100% fresh, ripe tomatoes. Seeds and skins completely removed for a premium Mediterranean finish.

Passata Variants:

HB 12-14% | HB 14-16% | CB 12-14%

DICED & PEELED TOMATOES

Diced Tomatoes: Perfectly cubed, providing high convenience and a uniform structural profile ready for food services, salsas, and stews.

Peeled Tomatoes: Handpicked whole firm tomatoes, perfectly peeled and preserved in their own rich natural juice layout.

FRUIT PUREES & CONCENTRATES

Processed under sterile industrial aseptic systems, our high-density aromatic purees satisfy demanding international formulation standards for juices, nectars, dairy bases, and gourmet confectionery applications.

MANGO PUREE & CONCENTRATE

Egypt's premium mangoes shine in Granova Food's mango puree, delivering intense tropical profiles with an extremely rich, buttery golden pulp entirely free from stringing.

OPERATION STRATEGY & PRIVATE LABELING

Operation Strategy

Granova Foods sources most of its products from its farms directly and from farms we supervise.

Our factory and warehouses are located near the farms where these products grow to ensure total freshness.

They are also equipped with a wide range of packaging options to fill the global market's specific distribution needs.

PRIVATE LABELING & OEM SERVICE

We offer specialized “**Private Labeling**” services for end-use supermarkets, commercial buying groups, and major international food distributors. We tailor packaging sizes, barcodes, localized layout parameters, and language translations to match strict retail regulations in destination markets.

COLD CHAIN INTEGRITY

Two main factors ensure our absolute reliability:

- our intimate relationship with production sites, and our geographically disparate agricultural sources that guarantee supply stability. Products must never be refrozen once thawed.
- We maintain strict adherence to continuous deep-freeze transport networks at -18°C across all maritime shipping corridors to safely deliver quality from farm to fork.
